1. Introduction

The USB-C 3.2 Gen 1 to HDMI adapter enables razor-sharp 4K/30Hz resolution and supports dual display for extending or mirroring your screen. Thanks to the simple USB plug-and-play function, monitors can be added or removed without rebooting. Backwards compatibility with older HDTVs and projectors ensures versatility. With its high-quality aluminum housing, the adapter not only offers an attractive appearance, but also a long service life. In addition, up to two graphics adapters can be used simultaneously on one PC.

2. Specification

Connections	1x USB-C (3.2 Gen 1) input - Host connection
	1x HDMI - Max. Resolution: 4096 x 2160p at 60Hz
