CAT 6 S-FTP outdoor patch cord, Cu, PE AWG 27/7, length 5 m, black sheath color

DIGITUS® Category 6 Class E patch cables are manufactured and tested in accordance with the ISO/IEC 11801 and DIN EN 50173 CAT 6 standards. They ensure that the cable installation complies with the ISO & EN channel specifications and deliver outstanding performance in DIGITUS® CAT 6 cabling. Performance has been tested up to 250 MHz, including performance characteristics such as near-end crosstalk (NEXT). DIGITUS® patch cords have been specially developed to fully meet all requirements across various application areas. Each cable is equipped with a molded kink-protection sleeve with strain relief. Additionally, the sleeve features a latch-protection mechanism that prevents the cable from snagging and the latch from breaking off the connector. With its UV-resistant PE outer jacket, this outdoor patch cable enables safe installation in areas subject to extreme temperature fluctuations and exposure to sunlight.

Outstanding performance and connection quality for your network, with UV resistance.
