EAN 4016032489801

Fiber LC-duplex coupler, SM, for keystone panel OS2, Color blue, incl. keystone frame

The fiber optic keystone couplers are used to connect two LC fiber optic cables to extend the length of the cable link. Installation is extremely simple with the snap-in technology. They can be easily snap into keystone patch panels or wall plates with standard openings, allowing to run cables through walls and conveniently connect to your fiber optic network.

The standardized dimensions of adapters makes it suitable for most conventional distributors and wall outlets making it a great solution for bringing fiber to the home and office.
