FO splice box, 1U, equipped, 12x LC DX, OM3 incl. splice cassette, colored pigtails, couplers

The Digitus pre-assembled splice box is a ready-to-install, protective enclosure designed for the safe and organized management of fiber optic splice points. The pre-assembled splice boxes offered are equipped with pre-installed components, making them ideal for quick and efficient deployment in fiber optic networks. Pre-assembly eliminates the need for manual installation of components, significantly reducing installation time. They are configured to industry standards, ensuring consistency and reliability across multiple network installations. They therefore offer a combination of convenience, performance and durability that makes them an ideal solution for modern fiber optic networks.

The pre-equipped fiber splice box allows for quick installation, reduces setup time and ensures high reliability while protecting fiber splices and minimizing signal loss.
