DIGITUS® USB-PS/2 Combo-KVM Switch

DS-23200-2

EAN 4016032429982

8 port Combo KVM switch, 1 user, 8 PCs, IP function module slot

The high quality KVM switches with IP function (optional) are ideal for using in small to middle sized server rooms in which an access of the administrator must be guaranteed at any time from any place. They provide direct connection from a local console or even due to remote control over an existing internet connection. Due to the possibility to upgrade the firmware, they fit simply to all new conditions.
